

How will my child be included in activities outside the classroom?

As a fully inclusive school, all our trips, visits and activities are tailored to meet the needs of all the children. Where a child requires support in the classroom, this will be continued into out of school activities during the school day. Whilst school will ensure staffing ratios for special events and visits, you will be consulted and parents or carers may be invited if we feel that is the most positive way to ensure a child has the most successful experience. This is always discussed in individual cases.

After School Clubs

All children are encouraged to take part in our wealth of extracurricular activities. Where necessary, these will be differentiated to allow your child to fully take part. If a child is in a group led by an outside team, and they have a IEP, they will be encouraged to share this with the group leader.
